About Me

I am a student of the University of Yaounde I in Cameroon, I am 20 years old, I am in level 3, i will get my licence degree this year.

I work as a fullstack web developer using Reactjs and Express frameworks (JavaScript). My main aim is to build software solutions (web platforms) that will resolve real problems.

Educational

2018 – 2019

College of Ekorezok

I got my bachelor's degree

2019 – present

University of Yaounde I in Cameroon

I study in the University of Yaounde I since 2019, now i'm in level 3

Experiences

2019 – present

Learning period

I start the frontend development in 2019 with HTML, CSS and Javascript. Then i continue by learning ReactJS and Nodejs/ ExpressJs frameworks. I realized some mini project during my learning period.

2021

Realization of a Game | Blooming Game

i have realized a game named Blooming game base on the cashflow game of Robert Kiyozaki

i used only ReactJs framework (JavaScript)

Realization of a Game | Findword Game

During my holidays from august to september 2021, I realized a game called FINDWORD GAME, using both ReactJs and ExpressJS frameworks

link: <https://findword.games>

Realization of a music app | MusikApp

On october 2021, i realized a music application which can play music on the browser, I called it MusikApp. I used ReactJs to build it.

december 2021 - present

Realization of a Social Network | Tundah

On December 2021, I starting working on a social network with my friends related to the African Culture Heritage where every could publish anything concerning their culture and make it available to others users, we call it **Tundah**, which means **Wedding**. It's an academic project.

We decided to use ReactJs and Nodejs | Express to develop it.

2022

Realization of market place | Bteach

To participate to the Google Developer Student Clubs (GDSC) Solution Challenge launched from february to april 2022, my friends and I decided to realized a market place which will help cameroonians repeaters (tutors) to find customers in an easy way and earn money by teaching. That's why we develop **Bteach**.

We decided to use ReactJs and Firebase to develop it.
